Wire Shelving Storage Solutions

Super Adjustable Super Erecta® Shelving

The easiest to adjust wire shelving system ever.

SiteSelect™ Posts

Super Erecta® SiteSelect posts are fitted with adjustable leveling bolts to compensate for uneven surfaces. Special length posts are available. SiteSelect™ Posts are grooved at 1" increments and numbered at 2" increments. Posts are double-grooved every 8" for easy identification.

- **Adjustable:** Lift the release on each corner, and adjust your shelf at precise 1" (25mm) increments in seconds.
- **Easy Assembly:** No tools, no wasted time and, best of all, no wasted space.
- **Unique Design:** Open-wire design minimizes dust accumulation and allows a free circulation of air, greater visibility and light penetration.

Metro Fact:

Metroseal 3 is enhanced with built-in Microban® antimicrobial product protection, which protects the Metroseal 3 coating from bacteria, mold, mildew and fungi that cause odors, stains and product degradation.

Note: For availability of Super Adjustable Shelving not listed above, contact your Metro representative.

Super Erecta® and Super Adjustable Top-Track™

Combines movable aisles and stationary end units — utilizing all available space.

- Mobile and stationary units attach to overhead tracks to increase storage capacity.
- Overhead track system compensates for uneven floors and makes access easy, with no underfoot tracks to stumble over or trap dirt.
- Eliminates the need for costly facility expansion.
- Available in a variety of sizes.

Super Erecta® and Super Adjustable Top-Track™

Stationary End Unit Kits

Includes hardware necessary for connecting stationary end units to track. **One kit is required per single system. Shelves sold separately. 86" (2185mm) posts included.**

Shelf Width (in.) (mm)	Approx. Pkd. Wt. (lbs.) (kg)		Cat. No. Chrome-Plated	Cat. No. Metroseal 3	Cat. No. Stainless Steel

OVERHEAD VIEW

Notes:

1. Each stationary end and intermediate unit **must** have a minimum of four shelves. For all Super Adjustable applications, the top and bottom shelves must be non "quick adjust" Super Erecta shelves.
2. The standard Deep Top-Track system requires the use of 86" (2185mm) posts (i.e., 86P, 86PK, or 86PS) on the stationary end and intermediate units. Shelves for the stationary end and intermediate units are sold separately.
3. The mobile unit kit include special 74" (1880mm) posts with casters. Shelves for mobile units are sold separately.
4. Recommended maximum load rating for a mobile unit is 900 lbs. (410kg). Floor should be level, smooth, and free from large cracks and raised obstacles.
5. Under normal conditions, an aisle width of 30"-36" (760-914mm) is recommended. The storage of very large objects within the system, however, may require an aisle width larger than 36" (914mm).
6. A stationary intermediate unit is required when track length exceeds 21 feet (6405mm). A stationary intermediate unit may be used at the discretion of the user when track lengths are less than 21 feet (6405mm).
7. To accommodate bumpers, the actual size of a mobile unit is 2.5" (63.5mm) wider than the shelf width shown. For example, an 18" (457mm) wide unit is actually 20.5" (52mm).
8. Add 1.5" (38mm) to nominal track length to accommodate track hardware.

Metro Fact:

Metro Top-Track systems can increase storage capacity up to 50% and more by eliminating unnecessary aisle space.

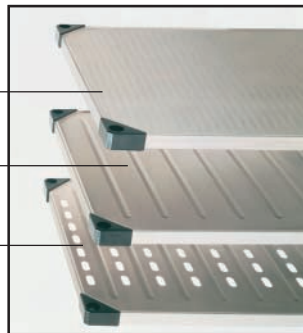

Super Adjustable/Super Erecta® System Overview

- **Adjustability:** Shelves can be quickly and easily adjusted at 1"* increments along the entire length of the post.
- **Unique Shelf Design:** Super Adjustable offers patented shelf release method for fast and easy shelf adjustment. Open-wire design minimizes dust accumulation and allows a free circulation of air, greater visibility and light penetration.
- **Unique Post Design:** SiteSelect post design, with double grooves every 8" provides a visual guide for positioning and adjusting shelves.
- **Available in seven finishes as well as a palette of designer colors.**

Shelves and Posts

- A Super Erecta® Shelves**
The original wire storage system.
Adjust quickly and easily at 1" increments along the height of the post. Open-wire design minimizes dust accumulation and allows a free circulation of air.
- B Super Adjustable Super Erecta® Shelves**
The easiest to adjust wire shelving system ever.
Simply lift the release on each corner and adjust the shelf at precise 1" increments in seconds. Open-wire design reduces dust accumulation and allows a free circulation of air.
- C Drop Mat Shelves**
For the storage of small to tall items.
Built-in 1" high ledge prevents contents from falling off shelf. Also available in qwikSLOT style. Offered in Super Erecta Brite and chrome finishes, and a large array of designer colors.
- D Super Erecta® Solid Shelves**
Setting the standard for solid shelving.
1/8" raised edge on all sides is perfect for applications prone to spillage or contamination. Three styles: Flat, Embossed, and Louvered/Embossed. Available in stainless or galvanized.
- E Super Erecta® SiteSelect Posts**
Grooved at 1" increments and numbered at 2" increments. Posts are double-grooved every 8" for easy identification. Available for stationary and mobile applications.

- Flat
- Embossed
- Louvered/Embossed

Accessories

- F Stem Casters**
Use with Super Erecta posts and shelves to create a mobile shelving unit. Many types including swivel, swivel/brake, and rigid are available. Metro also offers dolly trucks and plate casters for heavy-duty applications.
- G Shelf Dividers**
Eight-inch high, pressure fit dividers keep shelf contents orderly.
- H 4" High Stackable Ledge**
For stationary or mobile applications. Ledges prevent items from protruding or falling from shelves.
- I 1" High Stackable Ledge**
- J Shelf Markers/Label Holders**
Shelf Markers are 6" x 1 1/4" and are available in seven colors. Label Holders are 1 1/2" high and are offered in three styles: flat, slanted and clear.
- K Super Erecta® Slide System**
A Super Space Saving Solution.
Adapts to 21" or 24" wide Super Erecta or Super Adjustable wire shelves. Custom slide configurations can be positioned quickly and easily on new or existing Metro units. Slides accept Metro tote boxes. Chrome finish.
- L Rods and Tabs**
Form side and back enclosures, or interior dividers, for a shelving unit. Finishes: chrome, stainless.
- M Enclosure Panels**
For stationary or mobile applications.
For use with Super Erecta wire or solid shelving, or Super Adjustable wire shelving.
